

Basics

Basic syntax and functions from the C++ programming language.

Boilerplate

```
#include <iostream>
using namespace std;

int main() {
    cout << "Hello World";
    return 0;
}
```

Copy

cout <<

It prints output on the screen

```
cout << "Hello World";
```

cin >>

It takes input from the user

```
cin >> variable_name
```

Define

```
#define PI 3.1415926535;
```
